Dear Employee,

This letter is to inform you that employees and other individuals who were covered under the company's health plan may request a copy of their Form 1095.

What is Form 1095?

Form 1095 provides information about health insurance coverage. It shows whether you were offered or enrolled in health coverage during the calendar year and identifies the months during which coverage was available or in effect. This form is intended for your personal records and may assist you when preparing your federal income tax return.

Is this form required to file my taxes?

In most cases, Form 1095 is not required to be submitted with your tax return. However, it is important to keep the form with your tax records in case you need the information it contains.

How to request a copy

If you would like to receive a copy of your Form 1095, please submit a request to the office. Upon request, the form will be provided within the timeframe required by law.

If you have questions regarding Form 1095 or the request process, please contact the office for assistance.

Thank you!

Shannon Moore
